

Contents

1	Introduction	8
2	Thought and Language	11
2.1	Good Old Fashion AI	11
2.2	Problems with Traditional AI	12
2.3	Nouvelle AI	15
2.4	Language	18
2.5	Summary	20
3	Signalling and Language	22
3.1	Introduction	22
3.2	Defining Signalling and Linguistic Behaviour	23
3.2.1	Signalling in Information Theory	23
3.2.2	Ethological Descriptions of Signalling	24
3.2.3	Differentiation of Linguistic and Signalling Behaviours	26
3.3	Artificial Life Literature	31
3.3.1	Werner & Dyer	32
3.3.2	MacLennan's Simorgs	36
3.3.3	Insight from Preliminary Experiments	40
3.4	Motivations to Communicate	42
3.5	Artificial Life Applied to Linguistics	50
3.6	Grounding Symbols	56
3.7	Integration of Sensors and Signalling	69
3.7.1	Continuous Channels	70
3.7.2	No Dedicated Channels	72
3.8	Summary	74
4	Integrating Talk with Action	75
4.0	Introduction	75
4.1	Integration of Signals to Sensors and Behaviour	75
4.2	Dedicated Channels	79
4.3	Four Part Problem	82
4.4	Empirical Approach / Solutions	86
5	Imitation	90
5.1	Introduction	90
5.2	Objectives	92
5.3	Initial Experimental Details	94
5.3.1	The Environment	94
5.3.2	The Agents	96
5.3.2.1	Overview and Physical Characteristics	97
5.3.2.2	Sensors	99
5.3.2.3	Actuators	101
5.3.2.4	Memory	102
5.3.2.5	Control mechanism	102
5.3.3	Learning Mechanism	105
5.3.4	Task	107
5.3.5	Fitness Function	109
5.4	Initial Experimental Results	111

5.4.1	Preliminary requirements	111
5.4.2	Total Signal Disabling	113
5.4.3	Signalling Partially Disabled	116
5.4.4	Signalling Fully Enabled	117
5.5	Revised Experimental Details	119
5.5.1	Environment	119
5.5.2	Agent Control Architecture	120
5.5.3	Adaptive Mechanism and Fitness Function	122
5.5.4	Successful imitation	123
5.5.5	Dynamic Stability & Drift	126
5.5.6	Further Signal Acquisition	128
6	The Babbling Robots	132
6.1	Introduction	132
6.2	Objectives	134
6.3	Experiment	136
6.3.1	The Task	136
6.3.2	The Agents	138
6.3.3	Adaptive Mechanism	139
6.4	Results	140
6.4.1	Overview	140
6.4.2	Varying signal channel numbers	143
6.4.3	Effects of Channel Number	144
6.4.4	Measuring the Effects of Variations in Signal Mutation Rate	147
6.4.5	More Complex Environment	149
6.5	Conclusion	150
7	Thinking Aloud	152
7.1	Introduction	152
7.2	Objectives	153
7.3	Experiment	155
7.4	Results	157
7.4.1	Control	157
7.4.2	Unable to Hear Yourself Think	159
7.4.3	Success	161
7.5	Conclusions	162
8	Conclusions	165
